

Summary of edits to Program Administrator for SWM participant guide version 3.1

Module 1

- Reorganized order of content
- Page 7 – Added definition of Chesapeake Bay Preservation Act land-disturbing activity
- Page 10 – Added locality VSMP authority permit requirements
- Page 10-12 – Added inspector, plan reviewer and combined administrator roles

Module 3

- Page 13 – Added: Runoff associated with Chesapeake Bay Preservation Act land-disturbing activities (greater than or equal to 2,500 ft.². and less than one acre in Chesapeake Bay Preservation Areas) must be regulated by localities subject to the Chesapeake Bay Preservation Act, or in the case of state and federal projects, DEQ.
- Page 17 - Added authorities under who may submit annual standards and specifications

Module 4

- Reorganized order of content
- Page 3 – Edited application package checklist to replace SWPPP with approved stormwater management plan and approved erosion and sediment control plan
- Page 4 – Added plan preparation to step 1 in flow chart and SWPPP development to step 6
- Page 13 – Grandfathering: All other land-disturbing activities - added land disturbing activities grandfathered under the provision listed above, shall remain subject to the Part II C technical criteria until June 30, 2019. After such time, portions of the project not under construction shall become subject to any new technical criteria adopted by the Board.
- Page 22-26 – Changed 4e title to SWPPP Development and included all the components the operator must include in the SWPPP
- Page 26 – Added note about meeting SWPPP requirements by incorporating other plans by reference
- Page 27 – Added 4f. Single-Family Detached Residential Structures and consolidated all the requirements/provisions for single-family detached residential structures in one place
- Page 28 – Added instructions for using DEQ's GIS Mapping Application to obtain the HUC, receiving waters, and latitude and longitude to fill out the registration statement can be found at:
<http://www.deq.virginia.gov/Programs/Water/StormwaterManagement/VSMPPermits/ConstructionGeneralPermit.aspx>
- Page 35 – Construction General Permit System -Edited: ***Before*** the locality VSMP authority can enter the registration statement information into the Construction General Permit System, the program administrator must confirm the following:

Module 5

- Page 6 – Consolidated content that was also included in Module 4 pertaining to TMDLs, impaired waters and exceptional waterways

Module 6

- Page 3 - Added: If the VSMP has not implemented the necessary compliance actions identified by the Board within 30 days following receipt of the corrective action agreement, or such additional period as is granted to complete the implementation of the corrective action, then the Board shall have the authority to:
 1. Issue a special order to any VSMP imposing a civil penalty not to exceed \$5,000 per day with the maximum amount not to exceed \$20,000 per violation for noncompliance with the requirements of this article and its regulations, to be paid into the state treasury and deposited in the Virginia Stormwater Management Fund established by § 62.1-44.15:29 or
 2. Revoke its approval of the VSMP. The Administrative Process Act (§ 2.2-4000 et seq.) shall govern the activities and proceedings of the Board under this article and the judicial review thereof.
